Attached Memo from PGB

25X1A9a

25X1A9a

1. [REDACTED] came in yesterday morning and said that he had discussed the maintenance notice question on the KP's with [REDACTED] but had gotten no definitive answer from him as to whether it should or should not carry the destruction notice. He said that [REDACTED] had no strong feeling on either one way or the other. 25X1A9a

2. I talked to Dan Clinton to see if they had any reasons for not destroying the Sections 59 when the KP's were published on an area. He didn't recall that there had ever been any discussion on this point, but said that he saw no reason why the 59's could not be destroyed when the KP's are issued. Accordingly I told Jim to have the maintenance notice put on the two KP's that are now at the printers. I also instructed him to insure that in the future the maintenance notice is on KP's published on any area on which a Section 59 has been published.

25X1A9a 3. Late yesterday afternoon the attached comment from [REDACTED] came down, but I couldn't see that it changed the situation any, so I did not change my instructions to [REDACTED] 25X1A9a  
Actually all the KP's published to date have had the maintenance notice instructing the holders to destroy the Sections 59 except for NIS Area 8, and Jim is preparing a notice to cover the omission of the maintenance notice on the published copy.
